OCP SENIOR CREDIT FUND RESULTS OF OPERATIONS

The Fund provides exposure, by virtue of a forward agreement, to the performance of an actively managed, diversified portfolio (the “**Portfolio**”) held in OCP Credit Trust comprised of senior secured loans and other senior debt obligations of non-investment grade North American issuers. Onex Credit Partners, LLC (the “**Manager**”) is the manager of the Fund and also manages the Portfolio.

The Fund’s net assets were \$320.6 million as at June 30, 2011, a decrease from \$323.2 million as at December 31, 2010. The largest factors contributing to this decrease include distributions to unitholders of \$10.5 million and a net investment loss of \$2.1 million. This was partially offset by a net gain on the Forward Agreement of \$10.0 million.

For the six month period ended June 30, 2011, the net assets per unit of the Fund was \$9.40 after payment of distributions to securityholders of \$0.31 per unit compared to \$9.48 on December 31, 2010. Total return for the Fund was 2.4% over the period.

The following Manager’s commentary relates to the Fund’s exposure to the performance of the Portfolio held in OCP Credit Trust.

During the first six months of 2011, the Fund’s return was driven primarily by interest income. Some of the largest contributors to performance in the period included holdings in Texas Competitive Electric Holdings (TXU), Las Vegas Sands, Apollo Management, Radio One, and AWAS.

The most material change to the Portfolio in the period was the anticipated increase in its invested level which more than doubled from 69% of total net assets at December 31, 2010 (its first full month of investing) to approximately 154% of total net assets (equivalent to Debt/Total Assets of 35%) at June 30, 2011. This increase was consistent with the Fund’s investment strategy.

The composition and change to the composition of the Portfolio in the period were consistent with the investment objectives and strategy of the Fund. Portfolio capital was deployed primarily in floating rate, senior loan positions that are typically larger and more actively traded, and were selected for their strong asset coverage and cash flow coverage. The Portfolio had a modest allocation to secured corporate bonds.

While the U.S. economy continued to recover, market volatility was driven by factors such as the conclusion of U.S. government fiscal stimulus (e.g. QE-2), uncertainties regarding solvency of certain Euro-zone countries, the U.S. debt ceiling impasse, and political turmoil in the Middle East.

RECENT DEVELOPMENTS

Inflows into the loan market continued to be positive during the month of July, as investors allocated to loans for current income, senior priority and floating rates. The positive flows have reversed in August and the Manager is mindful of the significant and persistent structural issues in the U.S. and global economies, political turmoil in the Middle East, and the potential negative longer term consequences of the U.S. Federal Reserve's recent monetary stimulus policies.

International Financial Reporting Standards

On January 12, 2011, the Canadian Accounting Standards Board made a decision to extend the deferral of the adoption of International Financial Reporting Standards ("IFRS") by investment companies for an additional year to January 1, 2013. This results in a two-year deferral of IFRS adoption by investment companies compared to other publicly accountable entities. Consequently, IFRS would be applicable to the Fund for the fiscal year beginning January 1, 2013. At the transition date the prior fiscal year financial statements will require restatement to IFRS for comparative purposes.

The Fund is continuing with its orderly transition plan to meet the requirements to changeover to IFRS. The Fund has reviewed the existing body of IFRS against its current policies under Canadian GAAP and has noted certain policy differences most notable is the requirement to consolidate the financial results of the Fund with OCP Credit Trust. The Manager is reviewing closely the developments of the International Accounting Standards Board's investment company project which addresses consolidation for investment companies and is not expected to be issued before January 1, 2012. Apart from this, other major changes identified include the addition of a statement of cash flows and the classification of unitholder's equity (puttable instruments) as a liability unless certain conditions are met, as well as more extensive note disclosure requirements. These changes will not have an impact on the Fund's results of operations or financial position.

The process of evaluating the potential impact of IFRS on the financial statements is ongoing as the International Accounting Standards Board and the Canadian Accounting Standards Board continue to issue new standards and recommendations.

RELATED PARTY TRANSACTIONS

The Manager and the Fund are deemed to be related parties. Please refer to the section titled "Management Fees" which outlines the fees paid to the Manager. The Manager and the Fund were not party to any other related party transactions during the period ended June 30, 2011.

Notes:

- (1) This information is provided as at December 31 of the year shown, except 2011 which is provided as of June 30.
- (2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and, except as stated in the following sentence, is expressed as an annualized percentage of daily average net asset value during the period. The MER for the period ended December 31, 2010, includes agents' fees and other offering expenses, which are one-time expenses and therefore are not annualized. The MER for the period ended December 31, 2010, excluding agents' fees and offering expenses is 2.55%.
- (3) The Fund's return is linked, by virtue of a forward agreement, to the performance of a portfolio comprised primarily of senior secured loans and other senior debt obligations of non-investment grade North American issuers, and consequently, the portfolio turnover rate and trading expense ratio do not apply to the Fund.

MANAGEMENT FEES

The Manager is responsible for providing or arranging for all investment advisory and portfolio management services required by the Fund including, without limitation, managing the Portfolio in a manner consistent with the investment objectives, guidelines and restrictions of the Fund and for arranging for the execution of all portfolio transactions. The Manager is also responsible for the operational and administrative functions of the Fund. As compensation for the management services rendered to the Fund, the Manager is entitled to receive an annual management fee from the Fund in an amount equal to 0.50% of the net asset value of the Fund, which is calculated daily and paid monthly in arrears.

The Manager also receives an annual management fee in an amount equal to 1.00% of the net asset value of OCP Credit Trust, which is calculated daily and paid monthly in arrears.

The Manager has retained FA Administration Services Inc. to provide certain administrative services to the Fund. The Manager pays FA Administration Services Inc. out of its management fee.

PAST PERFORMANCE

Please note that the performance information shown in this section assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. Also note that the performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns on performance. The performance of the Fund in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund's annual performance for the periods shown. The bar chart shows, in percentage terms, how much an investment made on the first day of the period would have grown or decreased by the last day of the period.

(1) Returns are for the period from November 19, 2010 to December 31, 2010 .
