Investment Objectives and Strategies

The Fund provides exposure, by virtue of a forward agreement (the "Forward Agreement"), to the performance of an actively managed, diversified portfolio (the "Portfolio") held in OCP Credit Trust comprised of senior secured loans and other senior debt obligations of non-investment grade North American issuers. Onex Credit Partners, LLC (the "Manager") is the manager of the Fund and also manages the Portfolio. The Fund, through exposure to the Portfolio, seeks to achieve the following investment objectives: to provide securityholders tax-advantaged distributions currently targeted to be \$0.125 per quarter (\$0.50 per year to yield 5% per year based on the \$10.00 subscription price), to preserve capital and to generate enhanced return through increasing cash flow to the Portfolio as interest rates rise. The Manager seeks to generate attractive risk-adjusted returns and stable income through a long only strategy focused on senior secured loans and other senior debt obligations of non-investment grade issuers that the Manager believes have strong market positions, attractive and sustainable business models and high quality management teams. In pursuit of its objectives, OCP Credit Trust anticipates it will employ leverage up to 40% of its total assets.

Results of Operations

The Fund's net assets were \$291.6 million as at June 30, 2013, a decrease from \$309.3 million as at December 31, 2012. Factors contributing to this decrease include (i) redemptions of \$19.7 million; (ii) distributions of \$7.6 million; (iii) units purchased for cancellation of \$2.4 million; and (iv) net investment loss of \$1.6 million. This was partially offset by an increase of \$8.7 million in the unrealized value of the Forward Agreement and realized gains of \$5.5 million on the partial settlements of the Forward Agreement.

There are no significant changes in investment income and operating expenses as compared to the prior period.

As at June 30, 2013, net assets per unit of the Fund was \$9.88 after distributions to securityholders of \$0.25 per unit compared to \$9.75 on December 31, 2012. For the six month period ended June 30, 2013, total return for the Fund (inclusive of distributions) was 3.8%. The return of the Fund is, by virtue of the Forward Agreement, based on the return of OCP Credit Trust, which, in turn, is based on the performance of the Portfolio.

The following Manager's Commentary relates to the Fund's exposure to the performance of the Portfolio held in OCP Credit Trust.

During the period, interest income drove the vast majority of the Fund's return. Return was aided by positive market conditions for most of the period and performance of specific investments in the Portfolio. There continued to be no defaults in the Portfolio.

High yield bond and senior loan spreads continued to tighten this year through April reaching their lowest levels of the year in the second quarter. Starting in May, however, stronger than anticipated U.S. economic news and comments by the Federal Reserve turned focus to the nearer term risk of reduced stimulus and the potential for interest rates to rise. As a result, ten-year treasury rates spiked nearly 100 bps from their May trough to June peak and ended the quarter at 2.49%. The credit spread of the CS High Yield Bond Index jumped from its May lows by 97 bps to end June at 541 bps while the spread (assuming 3-year life) of the CS Leveraged Loan Index increased from its May lows by 45 bps to end June at 521 bps. The combination of the Treasury yield move and spread widening caused the average price of the high yield index to fall from a May peak of \$107.06 to \$101.39 at the end of June, or nearly six points. The average price of the loan index declined slightly over a point from a May peak of \$98.83 to \$97.60 at the end of June, helped in part by the floating rate character of loans.

Beyond normal changes due to the Portfolio's active management, there were no material changes in asset mix. The Portfolio's leverage averaged 39% (debt/total assets) in the period, slightly above debt/total assets of 36% as of December 2012. This leverage level is consistent with the Fund's investment strategy.

The composition and changes to the composition of the Portfolio in the period were consistent with the investment objectives and strategy of the Fund. Portfolio capital was deployed primarily in floating rate, senior loan positions that we assess to be larger and more actively traded and were selected for their strong asset coverage and/or cash flow coverage, among other criteria.

Recent Developments

The Manager continues to believe U.S. economic growth will be slow and stable with the default rate remaining low and inflation remaining muted. As a result, it believes the underpinning of the loan market should remain intact. Any change to the Federal Reserve's accommodative stance should be measured and gradual, although the Manager acknowledges market volatility could increase going forward as investors pay even greater attention to economic data and news that may impact the Federal Reserve's policy decisions.

On March 21, 2013, the Minister of Finance announced proposed measures which would affect certain tax benefits of the distributions paid to taxable unitholders of investment funds, such as the Fund, that utilize forward purchase and sale agreements to obtain exposure to an underlying reference portfolio. Based on its review to date, the Manager believes that the Fund and the tax characterization of distributions received by unitholders will be unaffected until the expiration of the forward agreement in November, 2015. The Manager awaits further guidance from the Federal Government on the implementation of the budget proposals and will provide additional details as soon as it is in a position to do so.

INTERNATIONAL FINANCIAL REPORTING STANDARDS

Canadian investment companies will be required to prepare their financial statements in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), for interim and annual periods beginning on or after January 1, 2014. These standards will replace the existing Canadian generally accepted accounting principles. Effective January 1, 2014, the Fund will adopt IFRS as the basis for preparing its financial statements. The Fund will prepare its first financial statements under IFRS for the interim period ending June 30, 2014, along with comparative data on an IFRS basis and an opening statement of financial position as at January 1, 2013.

The Fund is continuing with its orderly transition plan to meet the requirements to change over to IFRS. Based on the Fund's analysis to date, the transition to IFRS will primarily impact financial statement presentation and disclosures. A summary of the significant standards impacting the Fund under IFRS are outlined below. The key differences identified are based on the application of IFRS as they exist as of this date and will not have an impact on the Fund's Net Asset Value.

IAS 32 – Presentation of puttable instruments (equity vs. liability):

IAS 32 Financial Instruments: Presentation requires puttable instruments to be presented as a liability rather than equity on the Fund's Statement of Net Assets, unless certain conditions are met. IAS 32 defines a puttable instrument as a financial instrument that gives the holder the right to put the instrument back to the issuer for cash or another financial asset, as is the case with unit redemptions. The Fund is currently assessing its unitholder structure to confirm future presentation.

IAS 7 – Statement of cash flows:

In addition to the financial statements currently presented, the Fund will be required to present a statement of cash flows under IFRS.

IFRS 13 – Fair value measurement:

If an asset or liability measured at fair value has a bid price and an ask price, IFRS 13 requires that the price within the bid-ask spread that is most representative of the fair value be used to measure fair value. The use of bid prices for asset positions and ask prices for liability positions is permitted, but is not required. IFRS 13 allows for the use of mid-market pricing or other pricing conventions that are used by market participants as a practical means for fair value measurements within a bid-ask spread. As the Fund does not invest directly in securities, adoption of IFRS 13 is not anticipated to have a material impact.

IFRS 10 – Consolidated financial statements:

The Fund is expected to meet the definition to be an investment entity, and, as such, will not be required to consolidate its investments, but rather measure them at fair value through profit or loss, regardless of whether those investments are controlled.

Related Party Transactions

The Manager and the Fund are deemed to be related parties. Please refer to the section titled “Management Fees”, which outlines the fees paid to the Manager. The Manager and the Fund were not party to any other related party transactions during the period ended June 30, 2013.

Notes:

- ⁽¹⁾ This information is provided as at December 31 of the year shown, except 2013 which is provided as of June 30.
- ⁽²⁾ Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and, except as stated in the following sentence, is expressed as an annualized percentage of daily average net asset value during the period. The MER for the periods ended December 31, 2011 and December 31, 2010, include agents' fees and other offering expenses, which are one-time expenses and therefore are not annualized. Total expenses also include interest expense related to the leverage employed by OCP Credit Trust. The MER for the periods ended June 30, 2013, December 31, 2012, December 31, 2011 and December 31, 2010, excluding agents' fees and offering expenses and interest expense are 2.28%, 2.29%, 2.30% and 2.28%, respectively.
- ⁽³⁾ The trading expense ratio represents total commissions, forward agreement fees and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- ⁽⁴⁾ The Fund's return is linked, by virtue of a forward agreement, to the performance of a portfolio comprised primarily of senior secured loans and other senior debt obligations of non-investment grade North American issuers and, consequently, the portfolio turnover rate does not apply to the Fund.

Management Fees

The Manager is responsible for providing or arranging for all investment advisory and portfolio management services required by the Fund including, without limitation, managing the Portfolio in a manner consistent with the investment objectives, guidelines and restrictions of the Fund and for arranging for the execution of all portfolio transactions. The Manager is also responsible for the operational and administrative functions of the Fund. As compensation for the management services rendered to the Fund, the Manager is entitled to receive an annual management fee from the Fund in an amount equal to 0.50% of the net asset value of the Fund, which is calculated daily and paid monthly in arrears.

The Manager also receives an annual management fee in an amount equal to 1.00% of the net asset value of OCP Credit Trust, which is calculated daily and paid monthly in arrears.

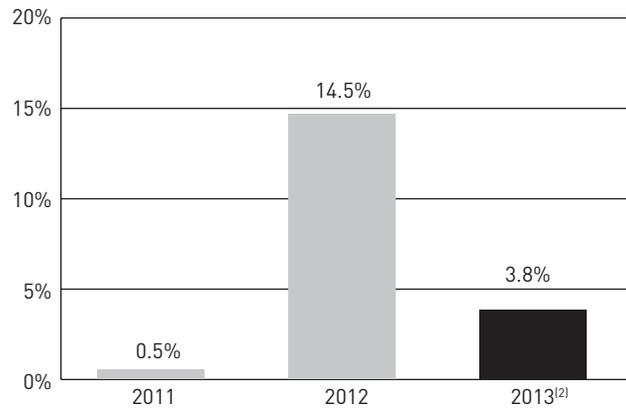

The Manager has retained FA Administration Services Inc. to provide certain administrative services to the Fund. The Manager pays FA Administration Services Inc. out of its management fee.

Past Performance

Please note that the performance information shown in this section assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. Also note that the performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns on performance. The performance of the Fund in the past does not necessarily indicate how it will perform in the future.

YEAR-BY-YEAR RETURNS ⁽¹⁾

The following bar chart shows the Fund's annual performance for the periods shown and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of the period would have grown or decreased by the last day of the period.

⁽¹⁾ Returns are based on Net Asset Value per unit.

⁽²⁾ Return for the period January 1, 2013 to June 30, 2013.

Summary of Investment Portfolio

The Fund has entered into a forward agreement whereby the Fund obtains exposure to the performance of the Portfolio. Accordingly, these financial statements should be read in conjunction with the financial statements of OCP Credit Trust. The Interim Management Report of Fund Performance and Interim Financial Statements for OCP Credit Trust are available to securityholders and can be attained by visiting our website at www.ocpseniorcredit.com or by writing to Onex Credit Partners, LLC, 910 Sylvan Avenue, Englewood Cliffs, New Jersey U.S.A. 07632, or on SEDAR at www.sedar.com.

As at June 30, 2013, one of the portfolio holdings in OCP Credit Trust is a total return swap. The following is a summary of OCP Credit Trust's portfolio as at June 30, 2013 assuming that the underlying assets of the total return swap were held directly by OCP Credit Trust. This is a summary only and will change due to ongoing portfolio transactions in OCP Credit Trust. A quarterly update will be available on www.ocpseniorcredit.com.

The percentages set forth in this Summary of Investment Portfolio may vary from the percentages set forth in the monthly updates prepared by the Fund. Chief among the reasons for the variance is that (i) the sector allocation in the summary is based on a percentage of net asset value and the monthly updates are based on a percentage of invested capital (direct investments plus exposure under the total return swap) and (ii) the summary reflects cash held by the Trust and the monthly update reflects only the direct investments held by the Trust plus exposure under the total return swap. Securityholders can obtain additional information by visiting our website at www.ocpseniorcredit.com.
