

OCP SENIOR CREDIT FUND

Monthly Update as at December 31, 2013

Investment Rationale and Objectives

OCP Senior Credit Fund provides Unitholders with exposure to the performance of an actively managed, diversified portfolio comprised primarily of first lien floating rate senior secured loans of non-investment grade North American issuers.

The Fund's objectives are: (i) provide Unitholders with attractive, quarterly, tax-advantaged distributions, currently targeted to be \$0.50 per annum, representing an annual yield of 5% based on the original issue price of \$10.00 per Unit; (ii) preserve capital; and (iii) generate enhanced returns through increasing cash flow to the portfolio as interest rates rise.

Commentary

Net performance of OCP Senior Credit Fund was 1.34% in December, resulting in a 2013 net return of 10.24%. Credit and equity markets gained, notwithstanding the first round of Federal Reserve tapering mid-month, on improving U.S. growth and moderating global risks. The CS Leveraged Loan Index, CS High Yield Index, and S&P500 returned 0.53%, 0.61%, and 2.52% in the month, respectively.

The Portfolio's top performers in December included the senior secured loan of Apollo Management. Apollo repaid this facility, which was trading at a discount to par, in full and ahead of its 2017 maturity date, resulting in a gain for the portfolio. There were no significant detractors during the month and there continued to be no defaults in the Portfolio.

The Portfolio refers to the positions held by the underlying fund, OCP Credit Trust. Through a forward agreement, the return of the Fund is dependent on the return of the Portfolio. Performance figures for the Fund are based on Canadian generally accepted accounting principles and were based on audited financial statements through December 31, 2012 and unaudited monthly estimates thereafter. Performance figures for the Fund include distributions paid during the relevant period and are calculated net of expenses and fees. Returns for the Fund may diverge from the returns for the Portfolio for several reasons including the incurrance of expenses and payment of distributions by the Fund.
