Investment Objectives and Strategies

The Fund provides exposure, by virtue of a forward agreement (the "Forward Agreement"), to the performance of an actively managed, diversified portfolio (the "Portfolio") held in OCP Credit Trust comprised of senior secured loans and other senior debt obligations of non-investment grade North American issuers. Onex Credit Partners, LLC (the "Manager") is the manager of the Fund and also manages the Portfolio. The Fund, through exposure to the Portfolio, seeks to achieve the following investment objectives: to provide securityholders tax-advantaged distributions currently targeted to be \$0.125 per quarter (\$0.50 per year to yield 5% per year based on the \$10.00 subscription price), to preserve capital and to generate enhanced return through increasing cash flow to the Portfolio as interest rates rise. The Manager seeks to generate attractive risk-adjusted returns and stable income through a long only strategy focused on senior secured loans and other senior debt obligations of non-investment grade issuers that the Manager believes have strong market positions, attractive and sustainable business models and high quality management teams. In pursuit of its objectives, OCP Credit Trust anticipates it will employ leverage up to 40% of its total assets.

Results of Operations

The Fund's net assets were \$253.1 million as at June 30, 2014, a decrease from \$299.1 million as at December 31, 2013. Factors contributing to this decrease include (i) redemptions of \$49.9 million; (ii) distributions to securityholders of \$6.7; (iii) a decrease in the unrealized value of the Forward Agreement of \$5.1 million; and (iv) units purchased for cancellation of \$1.3 million. This was partially offset by a realized gain on partial settlement of the Forward Agreement of \$18.8 million.

There are no significant changes in investment income and operating expenses as compared to the prior period.

For the period ended June 30, 2014, net assets per unit of the Fund was \$10.43 after distributions to securityholders of \$0.25 per unit compared to \$10.25 on December 31, 2013. The Fund returned 4.2% over the period (inclusive of distributions). The return of the Fund is, by virtue of the Forward Agreement, based on the return of OCP Credit Trust, which, in turn, is based on the performance of the Portfolio.

The following Manager's Commentary relates to the Fund's exposure to the performance of the Portfolio held in OCP Credit Trust.

During the period, interest income drove the majority of the Fund's return. Return was aided by positive market conditions for most of the period and the performance of specific investments in the portfolio.

Beyond normal changes due to the portfolio's active management, there were no material changes in asset mix. The portfolio's exposure at June 30, 2014 was 154.92% of net asset value, slightly below its exposure of 156.24% at December 31, 2013. This leverage level is consistent with the Fund's investment strategy.

The composition and changes to the composition of the Portfolio in the period were consistent with the investment objectives and strategy of the Fund. Portfolio capital was deployed primarily in floating rate, senior loan positions that we assess to be larger and more actively traded and were selected for their strong asset coverage and/or cash flow coverage, among other criteria.

We believe the underpinnings of the loan market should remain intact, subject to unanticipated disruptions. The underpinnings include slow but stable U.S. economic growth. In addition, we believe investors will continue to seek income producing investments which will also benefit senior loans.

Recent Developments

In 2014, investors generally continue to expect global accommodative monetary policies. While geopolitical issues, including tensions in the middle-east and the Ukraine, continue to be of concern, based on our ongoing analysis of the companies we invest in and follow, we continue to foresee U.S. domestic growth as being slow and stable. While this outlook leads us to question whether corporate earnings growth can support recent equity gains, it should be sufficient to support stability in the high yield credit markets. We are continuing to find ample opportunities in the U.S. and selectively abroad to execute the Fund's strategy.

INTERNATIONAL FINANCIAL REPORTING STANDARDS

The Fund adopted International Financial Reporting Standards (IFRS) on January 1, 2014 as required by Canadian securities legislation and the Canadian Accounting Standards Board. The Fund's financial statements for the semi-annual period ending June 30, 2014 are prepared in accordance with International Accounting Standard 34 *Interim Financial Reporting* (IAS 34), as prescribed by IFRS, and include 2013 comparative financial information and an opening Statement of Financial Position as at January 1, 2013, also prepared in accordance with IAS 34. Note 12 of the June 30, 2014 interim financial statements discloses the impact of the transition to IFRS on the Fund's reported financial position, financial performance and cash flows, including the nature and effect of significant changes in accounting policies from those used in the Fund's financial statements prepared under Canadian generally accepted accounting principles as defined in Part V of the CPA Canada Handbook (Canadian GAAP).

Related Party Transactions

The Manager and the Fund are deemed to be related parties. Please refer to the section titled "Management Fees", which outlines the fees paid to the Manager. The Manager and the Fund were not party to any other related party transactions during the period ended June 30, 2014.

Notes:

- ⁽¹⁾ This information is provided as at December 31 of the year shown, except 2014 which is provided as of June 30.
- ⁽²⁾ Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and, except as stated in the following sentence, is expressed as an annualized percentage of daily average net asset value during the period. The MER for the periods ended December 31, 2011 and December 31, 2010, include agents' fees and other offering expenses, which are one-time expenses and therefore are not annualized. Total expenses also include interest expense related to the leverage employed by OCP Credit Trust. The MER for the periods ended June 30, 2014, December 31, 2013, December 31, 2012, December 31, 2011 and December 31, 2010, excluding agents' fees and offering expenses and interest expense are 2.28%, 2.28%, 2.29%, 2.30% and 2.28%, respectively.
- ⁽³⁾ The trading expense ratio represents total commissions, forward agreement fees and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- ⁽⁴⁾ The Fund's return is linked, by virtue of a forward agreement, to the performance of a portfolio comprised primarily of senior secured loans and other senior debt obligations of non-investment grade North American issuers and, consequently, the portfolio turnover rate does not apply to the Fund.

Management Fees

The Manager is responsible for providing or arranging for all investment advisory and portfolio management services required by the Fund including, without limitation, managing the Portfolio in a manner consistent with the investment objectives, guidelines and restrictions of the Fund and for arranging for the execution of all portfolio transactions. The Manager is also responsible for the operational and administrative functions of the Fund. As compensation for the management services rendered to the Fund, the Manager is entitled to receive an annual management fee from the Fund in an amount equal to 0.50% of the net asset value of the Fund, which is calculated daily and paid monthly in arrears.

The Manager also receives an annual management fee in an amount equal to 1.00% of the net asset value of OCP Credit Trust, which is calculated daily and paid monthly in arrears.

The Manager has retained FA Administration Services Inc. to provide certain administrative services to the Fund. The Manager pays FA Administration Services Inc. out of its management fee.

Past Performance

Please note that the performance information shown in this section assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. Also note that the performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns on performance. The performance of the Fund in the past does not necessarily indicate how it will perform in the future.

YEAR-BY-YEAR RETURNS ⁽¹⁾

The following bar chart shows the Fund's annual performance for the periods shown and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of the period would have grown or decreased by the last day of the period.

⁽¹⁾ Returns are based on net asset value per unit.

⁽²⁾ Return for the period January 1, 2014 to June 30, 2014.

Summary of Investment Portfolio

The Fund has entered into a forward agreement whereby the Fund obtains exposure to the performance of the Portfolio. Accordingly, these financial statements should be read in conjunction with the financial statements of OCP Credit Trust. The Interim Management Report of Fund Performance and Interim Financial Statements for OCP Credit Trust are available to securityholders and can be attained by visiting our website at www.ocpseniorcredit.com or by writing to Onex Credit Partners, LLC, 910 Sylvan Avenue, Englewood Cliffs, New Jersey U.S.A. 07632, or on SEDAR at www.sedar.com.

As at June 30, 2014, one of the portfolio holdings in OCP Credit Trust is a total return swap. The following is a summary of OCP Credit Trust's portfolio as at June 30, 2014 assuming that the underlying assets of the total return swap were held directly by OCP Credit Trust. This is a summary only and will change due to ongoing portfolio transactions in OCP Credit Trust. A quarterly update will be available on www.ocpseniorcredit.com.

The percentages set forth in this Summary of Investment Portfolio may vary from the percentages set forth in the monthly updates prepared by the Fund. Chief among the reasons for the variance is that (i) the sector allocation in the summary is based on a percentage of net asset value and the monthly updates are based on a percentage of invested capital (direct investments plus exposure under the total return swap) and (ii) the summary reflects cash held by the Trust and the monthly update reflects only the direct investments held by the Trust plus exposure under the total return swap. Securityholders can obtain additional information by visiting our website at www.ocpseniorcredit.com.
