Investment Objectives and Strategies

The Fund provides exposure, by virtue of a forward agreement (the "Forward Agreement"), to the performance of an actively managed, diversified portfolio (the "Portfolio") held in OCP Credit Trust comprised of senior secured loans and other senior debt obligations of non-investment grade North American issuers. Onex Credit Partners, LLC (the "Manager") is the manager of the Fund and also manages the Portfolio. The Fund, through exposure to the Portfolio, seeks to achieve the following investment objectives: to provide securityholders tax-advantaged distributions currently targeted to be \$0.125 per quarter (\$0.50 per year to yield 5% per year based on the \$10.00 subscription price), to preserve capital and to generate enhanced return through increasing cash flow to the Portfolio as interest rates rise. The Manager seeks to generate attractive risk-adjusted returns and stable income through a long only strategy focused on senior secured loans and other senior debt obligations of non-investment grade issuers that the Manager believes have strong market positions, attractive and sustainable business models and high quality management teams. In pursuit of its objectives, OCP Credit Trust anticipates it will employ leverage up to 40% of its total assets.

Risks

There were no changes to the Fund over the period of this report that affected the overall level of risk associated with an investment in the Fund. Securityholders should refer to the Fund's annual information form ("AIF") for the year ended December 31, 2014 as it contains a detailed discussion of risk and other considerations relating to an investment in the Fund. The AIF is available free of charge from us (contact information above), on our website www.ocpseniorcredit.com and on SEDAR www.sedar.com. Readers are also directed to Note 8 of the Fund's 2014 Annual Financial Statements, which discusses management of financial risks.

Results of Operations

For the year ended December 31, 2014, net assets per unit of the Fund was \$10.05 after distributions to securityholders of \$0.50 per unit compared to \$10.25 on December 31, 2013. The Fund returned 2.9% over the period (inclusive of distributions). The return of the Fund is, by virtue of the Forward Agreement, based on the return of OCP Credit Trust, which, in turn, is based on the performance of the Portfolio.

The Fund's net assets were \$244.0 million as at December 31, 2014, a decrease from \$299.1 million as at December 31, 2013. Factors contributing to this decrease include (i) redemptions of \$49.9 million; (ii) distributions to securityholders of \$12.7 million; (iii) a decrease in the unrealized value of Forward Agreement of \$8.0 million; and (iv) units purchased for cancellation of \$1.3 million. This was partially offset by realized gains on partial settlements of the Forward Agreement of \$20.5 million.

There are no significant changes in investment income as compared to the prior year. Operating expenses are lower as compared to the prior year due to the decrease in average net assets over the period.

The following Manager's Commentary relates to the Fund's exposure to the performance of the Portfolio held in OCP Credit Trust.

During the period, interest income drove the majority of the Fund's return. Return was aided by positive market conditions in the first half of the period and the performance of specific investments in the portfolio.

Beyond normal changes due to the portfolio's active management, the most significant change to the portfolio's asset mix was an increase from 12% to 23% in the High Yield Bond exposure in the Fund. During the year we increasingly saw value in specific High Yield Bonds and adjusted the portfolio accordingly.

The composition and changes to the composition of the Portfolio in the period were consistent with the investment objectives and strategy of the Fund. Portfolio capital was deployed primarily in floating rate, senior loan positions that we assess to be larger and more actively traded and were selected for their strong asset coverage and/or cash flow coverage, among other criteria.

Based on the broad range of companies we follow and invest in, our outlook is for the U.S. economy to deliver modest but stable growth in 2015, while we expect many foreign economies to face continued headwinds. We do expect volatility to remain in the market near term as a result of the dramatic sell off in oil and other commodities at the end of 2014 and the continued uncertainty surrounding geopolitical events. Given this backdrop, we are cautious heading into 2015, but maintain a positive loan market outlook.

Recent Developments

Our outlook for the senior loan market is cautious, but positive based on modest U.S. economic growth and a continued temperate environment for defaults. We acknowledge that the resurgence of global risks – economic, political, and conflict related – could impact this outlook and we will adhere steadfastly to the Fund’s prudent investment approach.

INTERNATIONAL FINANCIAL REPORTING STANDARDS

The Fund adopted International Financial Reporting Standards (IFRS) on January 1, 2014 as required by Canadian securities legislation and the Canadian Accounting Standards Board. The Fund’s 2014 annual financial statements are prepared in accordance with IFRS, and include 2013 comparative financial information and an opening Statement of Financial Position as at January 1, 2013, also prepared in accordance with IFRS. Note 12 and the Fund Specific Notes of the December 31, 2014 annual financial statements disclose the impact of the transition to IFRS on the Fund’s reported financial position, financial performance and cash flows, including the nature and effect of significant changes in accounting policies from those used in the Fund’s financial statements prepared under Canadian generally accepted accounting principles as defined in Part V of the CPA Canada Handbook (Canadian GAAP).

Related Party Transactions

The Manager and the Fund are deemed to be related parties. Please refer to the section titled “Management Fees”, which outlines the fees paid to the Manager. The Manager and the Fund were not party to any other related party transactions during the year ended December 31, 2014.

Notes:

⁽¹⁾ This information is derived from the Fund's audited annual financial statements. The Fund adopted IFRS on January 1, 2014. Previously, the Fund prepared its financial statements in accordance with Canadian GAAP. Under Canadian GAAP, the Fund measured the fair values of its investments in accordance with CICA Handbook Section 3855 which required the use of bid prices for long positions and ask prices for short positions. Under IFRS, the Fund measures the fair value of its investments using the guidance in IFRS 13 which requires that if an asset or liability has a bid price and an ask price, then its fair value is to be based on a price within the bid-ask spread that is most representative of fair value. Accordingly, the opening net assets as at January 1, 2013 was restated to reflect the accounting policy adjustments made in accordance with IFRS. All figures presented for periods prior to January 1, 2013 remain in accordance with Canadian GAAP.

⁽²⁾ Results for the period from November 19, 2010 (inception date) to December 31, 2010.

⁽³⁾ For 2010, the net assets per unit reflects the issue price of \$10.00 less share issue expenses.

⁽⁴⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period.

⁽⁵⁾ Distributions were paid in cash.

⁽⁶⁾ This is not a reconciliation of the beginning and ending net assets per unit.

Notes:

- ⁽¹⁾ This information is provided as at December 31 of the year shown.
- ⁽²⁾ Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and, except as stated in the following sentence, is expressed as an annualized percentage of daily average net asset value during the period. The MER for the periods ended December 31, 2011 and December 31, 2010, include agents' fees and other offering expenses, which are one-time expenses and therefore are not annualized. Total expenses also include interest expense related to the leverage employed by OCP Credit Trust. The MER for the periods ended December 31, 2014, December 31, 2013, December 31, 2012, December 31, 2011 and December 31, 2010, excluding agents' fees and offering expenses and interest expense are 2.27%, 2.28%, 2.29%, 2.30% and 2.28%, respectively.
- ⁽³⁾ The trading expense ratio represents total commissions, forward agreement fees and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- ⁽⁴⁾ The Fund's return is linked, by virtue of a forward agreement, to the performance of a portfolio comprised primarily of senior secured loans and other senior debt obligations of non-investment grade North American issuers and, consequently, the portfolio turnover rate does not apply to the Fund.

Management Fees

The Manager is responsible for providing or arranging for all investment advisory and portfolio management services required by the Fund including, without limitation, managing the Portfolio in a manner consistent with the investment objectives, guidelines and restrictions of the Fund and for arranging for the execution of all portfolio transactions. The Manager is also responsible for the operational and administrative functions of the Fund. As compensation for the management services rendered to the Fund, the Manager is entitled to receive an annual management fee from the Fund in an amount equal to 0.50% of the net asset value of the Fund, which is calculated daily and paid monthly in arrears.

The Manager also receives an annual management fee in an amount equal to 1.00% of the net asset value of OCP Credit Trust, which is calculated daily and paid monthly in arrears.

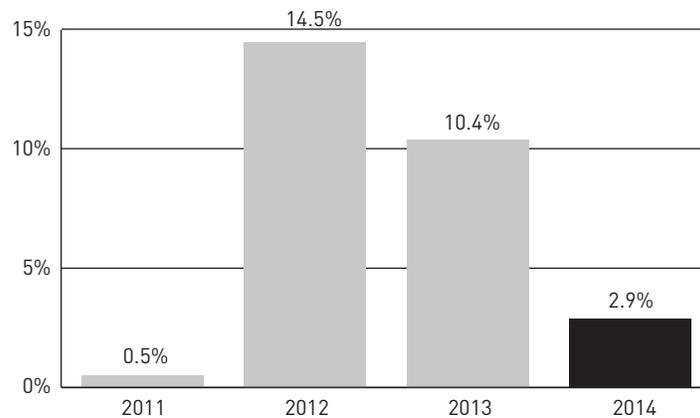

The Manager has retained FA Administration Services Inc. to provide certain administrative services to the Fund. The Manager pays FA Administration Services Inc. out of its management fee.

Past Performance

Please note that the performance information shown in this section assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. Also note that the performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns on performance. The performance of the Fund in the past does not necessarily indicate how it will perform in the future.

YEAR-BY-YEAR RETURNS ⁽¹⁾

The following bar chart shows the Fund's annual performance for the periods shown and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of the period would have grown or decreased by the last day of the period.

⁽¹⁾ Returns are based on net asset value per unit.

ANNUAL COMPOUND RETURNS

The table below summarizes the Fund's annual compound total returns for the periods ended December 31 as indicated. As a basis for comparison, we have provided the performance of the Credit Suisse High Yield Index ("Index A") which is designed to mirror the investable universe of the \$US-denominated high yield debt market and the Credit Suisse Leveraged Loan Index ("Index B") which is designed to mirror the investable universe of the \$US-denominated leveraged loan market. As the criteria for determining the constituents of the Portfolio and the indexes differ, it is not expected that the Fund's performance will mirror that of the indexes. Further, the return of the indexes is calculated without the deduction of management fees and fund expenses whereas the performance of the Fund is calculated after deducting such fees and expenses.

Period	Fund	Index A	Index B
1 Year	2.9%	1.8%	2.1%
3 Year	9.2%	7.8%	5.8%
Since Inception	6.9%	7.3%	5.0%

Summary of Investment Portfolio

The Fund has entered into a forward agreement whereby the Fund obtains exposure to the performance of the Portfolio. Accordingly, these financial statements should be read in conjunction with the financial statements of OCP Credit Trust. The Annual Management Report of Fund Performance and Annual Financial Statements for OCP Credit Trust are available to securityholders and can be attained by visiting our website at www.ocpseniorcredit.com or by writing to Onex Credit Partners, LLC, 910 Sylvan Avenue, Englewood Cliffs, New Jersey U.S.A. 07632, or on SEDAR at www.sedar.com.

As at December 31, 2014, one of the portfolio holdings in OCP Credit Trust is a total return swap. The following is a summary of OCP Credit Trust's portfolio as at December 31, 2014 assuming that the underlying assets of the total return swap were held directly by OCP Credit Trust. This is a summary only and will change due to ongoing portfolio transactions in OCP Credit Trust. A quarterly update will be available on www.ocpseniorcredit.com.

The percentages set forth in this Summary of Investment Portfolio may vary from the percentages set forth in the monthly updates prepared by the Fund. Chief among the reasons for the variance is that (i) the sector allocation in the summary is based on a percentage of net asset value and the monthly updates are based on a percentage of invested capital (direct investments plus exposure under the total return swap) and (ii) the summary reflects cash held by the Trust and the monthly update reflects only the direct investments held by the Trust plus exposure under the total return swap. Securityholders can obtain additional information by visiting our website at www.ocpseniorcredit.com.
